# Clinical Advances in Adult Deformities and Spinal Disorders: Surgical Treatment and Pre- and Post-Operative Re-Habilitation

### Message from the Guest Editor

Spine surgery and, consequently, spinal instrumentations and techniques have undergone continuous advancements over recent years. As instrumentation has advanced, increasingly high levels of accuracy in device placement have become essential. In recent years, remarkable progress has been made in the application of technology to spine surgery. This Special Issue “Clinical Advances in Adult Deformities and Spinal Disorders: Surgical Treatment and Pre- and Post-Operative Re-Habilitation” aims to explore how the management of spinal deformities and spinal diseases in general has changed over time. It seeks to identify new perspectives to transition from a physician-based assessments to a patient-centered perceptions of improvement. The central theme of this volume will be the advancements of treatments for spine pathologies of different etiologies, with a particular interest in the development and clinical application of new technologies to enhance standards of care, reduce complications, and improve outcomes. The Special Issue welcomes reviews and original articles. Other article types of particular relevance may also be considered.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
