

## Special Issue

# Diseases of the Salivary Glands

### Message from the Guest Editor

Salivary glands (SGs) fulfill important roles in oral biology and the loss of normal SG function results in widespread deterioration of oral health, greatly impacting the quality of patients' life. To date, no definitive therapeutic approach compensates for the impairment of SGs, and treatment is purely symptomatic. SGs were affected by a variety of diseases, local and systemic, and the prevalence of SGs diseases depends on various etiological factors. The glands may suffer from viral, bacterial, rarely fungal infections, which may cause painful swelling or obstruction, affecting their functions. The SGs may also be affected by various benign and malignant tumors which consist of a heterogeneous group of lesions with complex clinical-pathological characteristics. Overall, some serious problems for patients with SG diseases are often due to autoimmune diseases such as Sjogren's syndrome (SS), a complex systemic autoimmune inflammatory disorder. This Special Issue is intended to provide an overview of recent advances in the field of SG disorders and understanding the cellular and molecular mechanisms involved in the pathogenesis of SG diseases.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
