

## Special Issue

# Diseases of the Salivary Glands

### Message from the Guest Editor

Salivary glands (SGs) fulfill important roles in oral biology and the loss of normal SG function results in widespread deterioration of oral health, greatly impacting the quality of patients' life. To date, no definitive therapeutic approach compensates for the impairment of SGs, and treatment is purely symptomatic. SGs were affected by a variety of diseases, local and systemic, and the prevalence of SGs diseases depends on various etiological factors. The glands may suffer from viral, bacterial, rarely fungal infections, which may cause painful swelling or obstruction, affecting their functions. The SGs may also be affected by various benign and malignant tumors which consist of a heterogeneous group of lesions with complex clinical-pathological characteristics. Overall, some serious problems for patients with SG diseases are often due to autoimmune diseases such as Sjogren's syndrome (SS), a complex systemic autoimmune inflammatory disorder. This Special Issue is intended to provide an overview of recent advances in the field of SG disorders and understanding the cellular and molecular mechanisms involved in the pathogenesis of SG diseases.

## About the Journal

### Message from the Editorial Board

*Journal of Clinical Medicine* (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
