

## Special Issue

# Management of Chronic Critical Illness after Sepsis

### Message from the Guest Editors

Over the subsequent decade after the Surviving Sepsis Campaign, hospital mortality of sepsis decreased substantially. However, this tremendous success created a new problem: A growing epidemic of “sepsis survivors” are now progressing into chronic critical illness (CCI). These include increased cardiovascular events, malnutrition, sepsis recidivism, immobility, neuropathy, and frailty, as well as impaired host cognition and a suboptimal host microbiome. This Special Issue will describe these disorders and discuss potential interventions to minimize risk, maximize recovery, and prevent long-term mortality. These articles will work towards promoting multidisciplinary discussion and aid the focus of future research.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
