

# Special Issue

## Spinal Deformity

### Message from the Guest Editors

With an aging population, degenerative spinal deformity is increasingly prevalent and can be a cause for significant pain and disability. Non-operative management of symptomatic spinal deformity is typically multi-modal and can include physical therapy, injection therapy, and medication. Refractory symptoms can lead to evaluation for surgical treatment. Presently, the surgical options for adult spinal deformity are undergoing significant evolution in regards to techniques, instrumentation, and operative goals. The focus of this Special Issue is to review current non-operative and operative treatment options, as well as surgical techniques, medical and surgical outcomes, and potential novel advances in the care of spinal deformity.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
