

## Special Issue

# Current Advances in Spinal Diseases of Elderly Patients

### Message from the Guest Editors

Spine-related disorders often impair quality of life and activities of daily living, and are problems in rapidly aging societies. Notably, motor deficit, body imbalance, and neuropathic pain have been recognized as the main causes of frailty in the elderly population. Spine surgeons and neurosurgeons should make appropriate diagnoses, to interpret detailed pathologies, and plan optimized solutions in treating such patients. For this Special Issue titled “Current Advances in Spinal Diseases of Elderly patients”, we would like to invite authors to submit their original articles or review papers on recent surgical innovations, new diagnostic developments, and the long-term perspective of the clinical treatment of spinal disorders. Notably, we would like to focus on strategies for metastasis, degenerative deformity, and inflammatory diseases in the spine. ....

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
