Clinical Advances in the Diagnosis and Treatment of Cardiac Arrhythmias

Message from the Guest Editors

Cardiac arrhythmias encompass a broad and heterogeneous spectrum of clinical conditions, often requiring sophisticated diagnostic and therapeutic approaches. In recent years, substantial progress has been achieved in diagnostic accuracy, risk stratification, and the personalization of treatment strategies. Contemporary management integrates advanced imaging modalities, genetic profiling, and electroanatomic mapping to support patient-specific therapeutic decisions. Pharmacological treatment remains a central pillar, evolving from traditional antiarrhythmic agents to novel compounds targeting distinct atrial and ventricular substrates..... In parallel, device-based therapies have undergone continuous refinement..... Catheter ablation has become a cornerstone in the treatment of both atrial and ventricular arrhythmias, with the growing adoption of tailored ablation protocols..... This Special Issue aims to present recent developments in the diagnostic, pharmacological, and interventional management of cardiac arrhythmias, emphasizing how scientific progress can continue to refine and expand clinical practice in arrhythmology.

Guest Editors

Dr. Fabrizio Guarracini

Electrophysiology Unit, Cardio-Thoraco-Vascular Department, ASST Grande Ospedale Metropolitano Niguarda, Milan, Italy

Dr. Marisa Varrenti

De Gasperis Cardio Center and Transplant Center, Niguarda Hospital, 20126 Milan, Italy

Deadline for manuscript submissions

15 January 2026

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
