

## Special Issue

# Clinical Management of Salivary Gland Disorders

### Message from the Guest Editor

Parotidectomy, the surgical removal of lesions, mainly tumours, in the parotid gland, has long been a challenge in terms of the accurate resection of the lesion and minimizing complications. Even with the development of nerve monitoring devices, preservation of function is occasionally difficult. Therefore, preoperative and intraoperative diagnosis, especially histopathological characterization, is very important in the handling of the nerves. The challenges in salivary gland treatment are diverse, including surgical techniques, imaging, and pathology, and their development is essential for safe treatment. In this Special Issue, we welcome authors to submit papers on the clinical advances of salivary gland lesions in terms of both diagnosis and treatment.

- salivary gland tumour
- parotidectomy
- nerve monitoring
- immunotherapy

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
