

Special Issue

New Insights into Cardiovascular Radiology

Message from the Guest Editors

Cardiovascular radiology plays a critical role in the noninvasive assessment, diagnosis, and management of heart and vascular diseases. With the continuous evolution of imaging technologies such as CT, MRI, ultrasound, and nuclear medicine, radiologists are better equipped than ever to detect cardiovascular conditions early, guide treatment, and monitor outcomes. Advanced techniques, including functional imaging and artificial intelligence, are further enhancing precision and efficiency in clinical practice. This Special Issue aims to showcase the latest research, clinical innovations, and technological developments in cardiovascular imaging. By bringing together cutting-edge studies and expert reviews, we seek to provide a comprehensive overview of the current landscape and future directions in this rapidly advancing field. We encourage the submission of original articles and reviews that align with the scope of cardiovascular radiology and contribute to advancing patient-centered care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
