New Insights in Maxillofacial Surgery

Message from the Guest Editor

Maxillofacial surgery has undergone significant advancements in recent years, driven by innovations in surgical techniques, imaging technologies, biomaterials, and regenerative medicine. However, several clinical and academic challenges remain unresolved. Key issues such as the prediction and management of postoperative complications, the balance between function and aesthetics, and the standardization of digital technologies continue to require multidisciplinary exploration and evidence-based solutions. The Special Issue titled "New Insights in Maxillofacial Surgery" aims to bring together cutting-edge research and clinical innovations that go beyond conventional boundaries. By highlighting emerging technologies, novel methodologies, and insightful case studies, this Special Issue will serve as a platform for fostering knowledge exchange between clinicians, researchers, and allied health professionals. It will offer a fresh perspective and contribute to shaping the future of maxillofacial surgery.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
