

## Special Issue

# Challenges and Opportunities in Application of Laparoscopic, Robotic and Other Technological Advances in Gastrointestinal Surgery

### Message from the Guest Editors

In recent decades, minimally invasive surgery (MIS) has achieved rapid development and has been widely applied in all surgical fields. Both medical and surgical research have tremendously improved the outcomes of minimally invasive surgery and have paved the way for the further development of robotic surgery and other technological innovations.

This Special Issue is the ideal target for authors who wish to contribute to the growing evidence about minimally invasive surgery, including surgical robotics and the application of artificial intelligence in surgery.

Submission of high-quality papers in these fields will be considered.

Potential topics include, but are not limited to, the following:

Robotic surgery;  
Laparoscopic surgery;  
Preoperative design and intraoperative navigation of minimally invasive surgery;  
Augmented and mixed reality in surgery;  
Application of artificial intelligence in surgery.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
