Innovation in Facial Plastic and Aesthetic Surgery

Message from the Guest Editors

We are pleased to announce a Topic on new insights and recent advancements in Facial Plastic and Aesthetic Surgery and Regenerative Medicine. The topic will cover innovations in plastic reconstructive aesthetic and maxillofacial surgery. We encourage all potential authors to contribute with papers demonstrating new applications and new findings concerning flaps and autologous fat grafts, facelifts, new facial reconstructive and cosmetic procedures and new strategies based on autologous and/or mini-invasive procedures, as well as regenerative strategies such as platelet-rich plasma (PRP), human follicle stem cells (HFSCs), human adipose tissue-derived follicle stem cells (H-AT-d-FSCs), adipose-derived mesenchymal stem cells (AD-MSCs), micro-needling technique (MN-T) fat grafting, and biomaterials. With the collaboration of all of us, this volume is bound to strengthen the field and stimulate further research.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
