

Special Issue

Innovative Research in Periodontology and Implantology

Message from the Guest Editors

We are pleased to announce the launch of a new Special Issue entitled "Innovative Research in Periodontology and Implantology". We invite in vitro and in vivo submissions related to pathogenesis, regeneration, surface developments, and medicine-related topics in periodontology and implantology. The global prevalence of periodontal disease is high, with the severe form now higher than 10%. Although dental implants remain the preferred treatment procedure to replace missing teeth, they are often associated with early and late biological complications that can lead to implant failure. Among late failures, peri-implant diseases have become our main concern. Biomarker modulation and implant surface improvements have also been targeted to prevent irreversible tissue damage around teeth and implants. Moreover, regenerative therapies have been developed to deal with the tissue damage caused by periodontitis and peri-implantitis. Our main goal is to publish original research in basic and clinical periodontology and implantology. Systematic and narrative reviews will also be considered in this Special Issue.

Guest Editors

Prof. Dr. Carlos Marcelo Da Silva Figueredo

Dr. Daniel Fernandes

Dr. Stephen Hamlet

Deadline for manuscript submissions

closed (25 July 2024)

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
