

Special Issue

Symptoms and Treatment of Cardiac Amyloidosis

Message from the Guest Editor

This Special Issue aims to provide a comprehensive overview of the current understanding of cardiac amyloidosis, with a focus on advancements in the recognition of disease symptoms, including both cardiac and extracardiac manifestations, as well as diagnosis and treatment. The primary goal of this issue is to enhance awareness and understanding of symptoms of cardiac amyloidosis among clinicians and researchers. We aim to explore the latest advancements in diagnosing the disease, including cutting-edge imaging techniques, biomarkers, and biopsy approaches. Additionally, we will highlight current therapeutic strategies, ranging from the management of heart failure and arrhythmias to emerging treatment options such as transthyretin stabilization and immunotherapy. We invite contributions that explore a wide range of topics related to cardiac amyloidosis, including original research articles, comprehensive narrative reviews, and systematic reviews. By including a diverse range of articles, we aim to provide valuable insights that will guide clinicians in improving the diagnosis and management of cardiac amyloidosis.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
