

Special Issue

Advances in Minimally Invasive Cardiothoracic Surgery: Current Techniques and Future Innovations

Message from the Guest Editors

We are delighted to invite you to contribute to this Special Issue, entitled 'Advances in Minimally Invasive Cardiothoracic Surgery: Current Techniques and Future Innovations'. This Special Issue aims to bring together cutting-edge research, innovative techniques, and expert perspectives in the field of minimally invasive cardiothoracic surgery, highlighting the rapid advancements and future directions of this dynamic field. We welcome submissions covering a wide range of topics, including, but not limited to, the following:

- **Minimally invasive valve surgery:** Latest techniques, outcomes, and evolving technologies.
- **Video-assisted thoracic surgery (VATS) and robotic surgery**
- **Hybrid procedures**
- **Advanced imaging and navigation**
- **Postoperative management and enhanced recovery protocols**
- **Emerging techniques and future perspectives**
- We encourage you to submit your original research, reviews, and technical notes. Your contributions will help shape the future of minimally invasive cardiothoracic surgery.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
