

## Special Issue

# Emerging Therapies for Multiple Myeloma

### Message from the Guest Editor

Multiple myeloma (MM) is a complex hematological malignancy. The treatment of multiple myeloma has evolved rapidly in recent years with the emergence of many new drugs and new data from randomized trials. These research frontiers have brought new hope for the treatment of multiple myeloma. This Special Issue focuses on the latest advances and trends in the treatment of multiple myeloma. We hope to contribute to a comprehensive understanding of multiple myeloma treatment by providing insight into the rationale, clinical trial results, and potential applications of emerging therapeutic approaches. The scope of this Special Issue covers a variety of emerging treatment methods, including but not limited to targeted therapy, immunotherapy, CAR-T cell therapy, new drugs, and personalized medicine. We invite researchers in the field of multiple myeloma-related areas to submit their findings as original articles or reviews to this Special Issue.

### Guest Editor

Dr. Brea C. Lipe

Department of Hematology and Oncology, University of Rochester Medical Center, Rochester, NY 14642-0001, USA

### Deadline for manuscript submissions

closed (30 June 2025)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
