

Special Issue

Perioperative Management in Thoracic Surgery

Message from the Guest Editor

Effective perioperative management plays a crucial role in enhancing patient outcomes and minimizing complications in thoracic surgery. This Special Issue is dedicated to exploring the latest advancements and approaches in perioperative care for patients undergoing thoracic surgical procedures. We welcome contributions on a variety of topics, ranging from preoperative assessments and surgical readiness to comprehensive postoperative care, with a special focus on the management of pain. This Special Issue aims to spotlight innovative practices that incorporate state-of-the-art technologies, new pharmacological treatments, and collaborative efforts across multiple disciplines. Our objective is to provide insights into evidence-based techniques and the latest trends that enhance safety, improve operational efficiency, and increase patient satisfaction in the realm of thoracic surgery.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
