

Special Issue

Diagnosis and Management of Temporomandibular Joint Disorders

Message from the Guest Editors

It is with pleasure that we announce the opportunity of joining us in this exciting publishing adventure on Temporomandibular Disorders (TMDs). As we are all aware, much has yet to be done as regards a proper science transfer process in this intriguing field of practice that embraces multispecialist involvement and requires knowledge from different perspectives (e.g., biomechanical, neurological, psychological). Within this premise, this Special Issue aims to collect high-quality papers that report clinical research data on the topics of TMD diagnosis and management. Readers will be provided with interesting content to gain a deeper understanding into the biopsychosocial model of pain.

Guest Editors

Prof. Dr. Daniele Manfredini

Department of Neuroscience, School of Dentistry, UNIPD, University of Padova, Padova, Italy

Prof. Dr. Luca Guarda-Nardini

ULSS 2Mark Trevigiana Hospital Italy, Treviso, Italy

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
