

Special Issue

Thrombocytopenia and ITP: Causes, Symptoms, and Treatment

Message from the Guest Editors

Thrombocytopenia encompasses a diverse range of conditions, ranging from acquired to constitutive. With the availability of high throughput molecular techniques, new insights into the etiology of immune and inherited thrombocytopenia syndromes have markedly improved our ability to diagnose and counsel patients accurately and promise to aid in the development of novel therapeutics. This Special Issue of the Journal of Clinical Medicine will cover the following important aspects of this field:

- Molecular understanding of thrombopoiesis
- Molecular basis of inherited platelet defects
- Leukemia predisposition in inherited thrombocytopenia syndromes
- Mechanisms of immune dysregulation in immune thrombocytopenia
- New therapeutic developments

Guest Editors

Prof. Dr. Amy E. Geddis

Pediatric hematology oncology, University of California, San Diego and Rady Children's Hospital San Diego, 3020 Children's Way, San Diego, CA 92123, USA

Dr. Michele P. Lambert

Perleman School of Medicine at the University of Pennsylvania and the Children's Hospital of Philadelphia, 34th St and Civic Center Blvd, Philadelphia, PA 19104, USA

Deadline for manuscript submissions

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
