

Special Issue

Clinical Diagnosis and Management of Erectile Dysfunction

Message from the Guest Editors

Erectile dysfunction (ED) is one of the most prevalent male sexual health disorders worldwide, affecting quality of life, relationships, and overall well-being. Despite the availability of numerous therapeutic options, the optimal management of ED remains a challenge due to its multifactorial etiology. Moreover, advances in diagnostic techniques and the development of novel treatment modalities—from pharmacological agents and regenerative medicine to surgical innovations—have significantly expanded our understanding and management options. This Special Issue, “Clinical Diagnosis and Management of Erectile Dysfunction”, aims to provide a comprehensive overview of current approaches and emerging trends in the diagnosis and treatment of ED. We welcome submissions of original research articles, clinical studies, and systematic reviews, such as patient stratification, guideline-based management, surgical and minimally invasive interventions, psychosexual therapy, and innovations in regenerative and personalized medicine. We look forward to receiving your valuable contributions to foster scientific exchange and advance clinical care in this evolving field.

Guest Editors

Dr. Maurizio De Rocco Ponce

Andrology Department, Fundació Puigvert, Instituto de Investigaciones Biomédicas Sant Pau (IIB-Sant Pau), Universitat Autònoma de Barcelona, 08041 Barcelona, Spain

Dr. Giuseppe Grande

Unit of Andrology and Reproductive Medicine, Department of Medicine, University of Padova, Padova, Italy

Deadline for manuscript submissions

15 June 2026

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
