

Special Issue

New Insights into Corneal Regeneration and Transplantation

Message from the Guest Editors

This Special Issue invites contributions from scientists, clinicians and leading experts in the fields of ophthalmology, eye banking, and transplantation, who have conducted pioneering and well-founded research on the intricacies of corneal regeneration and transplantation. Through a multidisciplinary lens, this Special Issue will ensure to provide insights into a wide array of the latest innovative strategies, such as stem cell therapies, tissue-engineered constructs, and immunomodulatory interventions, that have revolutionized the practical applications of corneal treatments. Moreover, we also aim to include studies addressing the challenges of immune rejection, graft survival, and functional restoration, thereby heralding a new era of precision medicine in ocular care. We hope that this Special Issue will strengthen the knowledge of current advancements in ocular care, and pave the way for novel explorations, fostering improved clinical outcomes and an enhanced quality of life for countless individuals.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
