

Special Issue

New Update on Personalized Treatment of Autism Spectrum Disorder and Related Disorders

Message from the Guest Editors

We are pleased to invite you to contribute to this Special Issue of *JCM* on personalized interventions for children and adolescents with Autism Spectrum Disorder and related disorders. This Special Issue aims to present recent contributions on therapeutic interventions that tailor the process to the patient's unique needs, with the goal of bringing scientific research closer to children's daily lives to best support them at each stage of growth. We welcome original research and reviews that cover, but are not limited to, the following topics:

- Intervention strategies;
- Therapeutic advance;
- Studies on differentiated treatment paths;
- New technology;
- Individual differences and heterogeneity;
- Gender differences and potential implications;
- Factors Influencing intervention's efficacy.

Guest Editors

Dr. Francesca Cucinotta

Dr. Rosamaria Siracusano

Dr. Erica Pironti

Deadline for manuscript submissions

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
