Best Practices for Cardiovascular Team-Based Care: Cardiac Heart Diseases (CHD) Clinical Conundrum

Message from the Guest Editors

Cardiac heart diseases (CHD) represent a clinical conundrum. Team-based care uses multidisciplinary teams, health professionals, community health workers, and others. Practical insights for physicians who cope with patients with cardiopathies should be constantly updated, addressing state-of-the-art of the entire spectrum of cardiac heart failure (HF), including HF with preserved ejection fraction (HFpEF), HF with mid-range ejection fraction (HFmEF), and HF with reduced ejection fraction (HFrEF), coronary heart diseases (CHD), complex revascularization of coronary arteries and peripheral arterial disease (PAD), and other cardiomyopathies. This Special Issue aims to highlight best practices for managing CHD as well as the assessment of emerging new therapies, treatment options, more advanced team-based strategies, clinic workflows and protocols.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
