

Special Issue

Coronary Heart Disease: Causes, Diagnosis and Management

Message from the Guest Editor

We are currently working on a Special Issue focusing on coronary heart disease. Despite remarkable progress being made in recent decades, coronary heart disease is still the leading cause of morbidity and mortality worldwide, representing a major public health issue, with a huge impact in terms of costs and quality of life. Great research efforts are needed to improve the diagnosis and treatment of this disease. From pathophysiology to assessment and management, we aim to an overview of the latest advances in the field and to examine the most intriguing challenges and expected developments that may impact our daily clinical practice. Therefore, we encourage you to submit to this Special Issue, providing additional insights on the causes, diagnosis, and management of coronary heart disease, considering emerging evidences in pharmacological therapies, invasive and non-invasive tools for the identification and stratification of patients who may benefit from coronary revascularization and technical advancements in percutaneous and surgical revascularization, particularly for complex high-risk procedures. We look forward to receiving your contributions to this exciting project.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
