Clinical Management of Patients with Heart Failure—2nd Edition

Message from the Guest Editor

I am pleased to invite you to contribute to this Special Issue entitled "Clinical Management of Patients with Heart Failure—2nd Edition". For the first edition, we published more than 15 papers, please visit: https://www.mdpi.com/journal/jcm/special_issues/91TCP5E3S2. In the last decade, along with the progress of fundamental sciences and pharmacotherapy and the prodigious efforts of the cardiology societies and healthcare systems worldwide, new therapeutic methods have been developed, and the availability of specialized medical care for the general population has increased, leading to a better management of patients with heart failure. Although a variety of new treatment options are available, starting with innovative drugs, and continuing with invasive procedures, not to forget the lifestyle change measures, selecting the most appropriate management of heart failure is difficult, raising challenges for the medical personnel and healthcare systems, while often leading to suboptimal results for the patient. This Special Issue focuses on original articles and reviews referring to groundbreaking research regarding the clinical management of heart failure.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
