Current Challenges in Oral Surgery and Pathology

Message from the Guest Editor

Oral surgery is constantly evolving. The pathologies remain substantially the same; however, their classifications and therapies change radically. Surgical therapy makes use of continuous evolutions in order to make outcomes more effective, in association with lower morbidity. Think, for example, of the new endoscopic technologies, lasers, operating microscopes, and piezoelectric as well as navigated osteotomies, but also anesthesiologic and conscious sedation techniques, which increasingly allow for better intra- and post-operative control of patient comfort. The purpose of this Special Issue is to collect significant papers in the field of oral surgery improvement.

Guest Editor

Dr. Christian Bacci

Unit of Oral Pathology, Department of Neurosciences, Section of Clinical Dentistry, University of Padova Teaching Hospital, 35128 Padova, Italy

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
