

Special Issue

Clinical Advances in Cardiovascular Interventions

Message from the Guest Editor

Cardiovascular diseases are still a major cause of morbidity and mortality throughout the world. To address the rising burden of cardiovascular diseases, we would like to encourage researchers and clinicians alike to submit their pivotal studies on advances in cardiovascular interventions. It is our great privilege to invite you to contribute to this Special Issue. We aim to publish well-designed studies that can exert a high level of impact on the evidence base of cardiovascular diseases. The long-term goal of this Special Issue is to create a scientific environment able to create studies exploring current clinical practice in percutaneous coronary interventions, valvular heart diseases, arrhythmias, and other cardiovascular interventions. Additionally, and equally important, consideration will be given to studies that focus on new techniques and methods used in the diverse array of cardiovascular interventions. We aim to publish ground-breaking research articles of significant clinical and scientific value, including observational studies, clinical trials, and review articles. Unique clinical cases, particularly supported by advanced imaging, are also welcome.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
