Targeted Treatment of Pancreatic Cancer

Message from the Guest Editors

"Targeted Treatment of Pancreatic Cancer" is a comprehensive Special Issue focusing on the latest advancements and research in the field of tailored therapies for pancreatic cancer. This Issue brings together cutting-edge studies, clinical trials, and breakthroughs aimed at developing targeted treatment approaches to improve patient outcomes and enhance the understanding of this challenging disease. With a particular emphasis on precision medicine, this Special Issue seeks to provide valuable insights into personalized therapies that hold the potential to revolutionize the management of pancreatic cancer. Please note that mini-reviews or case reports will not be published in this Special Issue. We seek original research articles, reviews, and perspectives that showcase innovative techniques and strategies related to the treatment of pancreatic cancer.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
