

Special Issue

Emerging Technologies for Dental Imaging

Message from the Guest Editor

In this Special Issue, we would like to cover the rapidly evolving field of dental imaging with a special focus on 3D imaging techniques like magnetic resonance imaging (MRI) or cone beam computed tomography (CBCT). The data on potential implementation fields of dental MRI like periodontology, oral surgery, orthodontics, and conservative dentistry have been growing for the past few years. Within this Special Issue, original research and review articles covering the advantages of novel MRI sequences while also expanding the evidence on CBCT in different clinical settings are particularly welcome, along with articles covering new artificial intelligence-driven techniques like pathology detection or the possibility of using large language models in dental imaging.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
