

Special Issue

Current and Emerging Treatment Options in Intestinal and Stomach Neoplasms

Message from the Guest Editors

We are delighted to announce the new Special Issue of *Journal of Clinical Medicine*, entitled “Current and Emerging Treatment Options in Intestinal and Stomach Neoplasms”. Based on the World Health Organization, gastrointestinal malignancies are responsible for one in four cancer cases. Even though gastric malignancy rates have decreased, colorectal cancer incidence has increased in countries with past low-incidence rates. Both primary and secondary prevention remain crucial. Thus, advancements in early treatment and management are essential for the improvement of outcomes in patients with GI malignancies. The scope of this issue will include research on new advancements in therapeutic options for intestinal and stomach neoplasms that will bring light to the current challenges faced by physicians. We are particularly interested in papers that bring innovative and groundbreaking information, enrich existing knowledge, highlight important issues, and report new findings to the scientific and medical world.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi
