Clinical Advances in Trauma and Orthopaedic Surgery

Message from the Guest Editors

The recent progress in orthopaedic surgery and its subspecialty areas is remarkable. Various common orthopaedic diseases have been under great scrutiny in recent years. Moreover, several innovative diagnostic and therapeutic algorithms have been studied, especially those related to hand/wrist surgery, tendon/ligament injuries, nerve injury and joint disorders. Additionally, significant advances and innovations related to robotic surgery, artificial intelligence (AI) and orthopaedic injections have been proposed. New indications and surgical techniques are also available, with debated and controversial results. Modern trends and directions are focused on minimally invasive surgery, AI-assisted surgery and the utilization of new therapeutic agents. In this Special Issue, we welcome authors to submit papers based on clinical advances and innovations of orthopaedic diseases in terms of both diagnosis and treatment.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
