Clinical Advances in Metabolic Dysfunction-Associated Steatotic Liver Disease

Message from the Guest Editor

It is my pleasure to invite you to contribute to this *Journal of Clinical Medicine* Special Issue entitled “Clinical Advances in Metabolic Dysfunction-Associated Steatotic Liver Disease”. As you know, the incidence and prevalence of metabolic dysfunction-associated steatotic liver disease (MASLD) is on the rise. Indeed, this condition is afflicting the global population and is projected to become the leading cause of liver transplantation in the next decade or less. Patients with MASLD are suffering from increasingly worse outcomes, making MASLD a significant burden to our patients, the economy, and healthcare systems as a whole. As the of this Special Issue, I look forward to accepting and publishing articles that highlight novel concepts for MASLD diagnosis and management to increase awareness and optimize management protocols. The journal and I thank you in advance for your contribution.

Guest Editor

Dr. Hirsh D. Trivedi

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
