

## Special Issue

# New Insights in Management of Constipation

### Message from the Guest Editor

Constipation is one of the most frequent gastrointestinal symptoms exposing patients to severe health impairment, decreased quality of life, and psychological distress. The management of constipation is a major challenge due to its high prevalence and lack of widespread specialist expertise. This Special Issue will mainly focus on the hot topics of constipation management to exhibit the latest results from diagnosis to treatment (nonoperative therapy or operative therapy). Original research articles are especially welcome, demonstrating innovative findings with the potential of enhancing the clinical capability of diagnosing and treating constipation among different patient groups. Additionally, submissions of high-interest review articles are encouraged.

## About the Journal

### Message from the Editorial Board

*Journal of Clinical Medicine* (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.
