

## Special Issue

# Epilepsy: Causes, Symptoms, Diagnosis, and Treatment

### Message from the Guest Editor

Epilepsy is a diffuse neurological condition with a remarkable impact on public health. Acknowledging its paramount importance, the 75th World Health Assembly adopted the Intersectoral Global Action Plan on Epilepsy and Other Neurological Disorders 2022–2031 (IGAP) on May 27. The incidence of epilepsy follows a U-shaped bimodal distribution, with peaks in early infancy and in the elderly. About 70% of people with epilepsy can enter seizure freedom with treatment. Nevertheless, both diagnostic and treatment gaps exist in every country in the world. To optimize epilepsy management, the awareness of the heterogeneous etiologies and of the variable seizure semeiology should be disseminated at the public level. A shared diagnostic algorithm should be pursued. Advanced neuroimaging and molecular diagnostics may indeed suggest tailored treatment in selected patients, as a precision medicine approach. The present Special Issue aims to collect innovative single reports and case series, critical reviews, out-of-the box viewpoints, and experimental findings focused on the diagnosis, management, and treatment of epilepsy with a focus on the future.

### Guest Editor

Dr. Emanuele Bartolini

Department of Developmental Neuroscience, IRCCS Stella Maris Foundation, Pisa, Italy

### Deadline for manuscript submissions

closed (20 January 2025)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
