Substance and Behavioral Addictions: Updates on Etiology and Clinical Interventions

Message from the Guest Editors

Addictions to various psychoactive substances constitute an established problem worldwide. Importantly, the prevalence of behavioural disorders (gambling, gaming, etc.) affecting individuals from childhood onwards is dramatically increasing. Pivotal issues in current research and practice include understanding mechanisms, manifestations, aetiological risks and co-occurrence, both between addictions and with other mental health problems, as these are important for efficient clinical interventions. Recent advancements in addiction research (e.g., the proinflammatory hypothesis of addiction) suggest that we need to move beyond traditional neurobiological models of addiction by targeting complex brain–body interactions, within a psychosocial context. This Special Issue aims to advance our current understanding of aetiology and clinical intervention related to substance and behavioural addictions. We invite contributions related to aetiology, biomarkers, interventions, and treatment outcomes related to substance and/or behavioural addictions. Original research articles, review articles, study protocols, feasibility studies and perspective articles are highly encouraged.

Guest Editors

Dr. Inga Griskova-Bulanova

Vice-Director of the Institute of Biosciences, Life Sciences Centre, Vilnius University, Vilnius, Lithuania

Dr. Grace Wang

School of Psychology & Wellbeing, Faculty of Health, Engineering & Sciences, University of Southern Queensland, Toowoomba, QLD, Australia

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
