

Special Issue

Bronchoscopy and Interventional Pulmonology

Message from the Guest Editors

Interventional pulmonology is an exciting and evolving subspecialty within the field of pulmonary medicine. It encompasses minimally invasive diagnostic and therapeutic bronchoscopic and pleural procedures to diagnose and treat a myriad of respiratory conditions such as emphysema, asthma, interstitial lung disease, central airway obstructions, and lung cancers. Advances in the field of interventional pulmonology continue to occur. Bronchoscopic lung volume reduction continues to evolve, with multiple new therapeutic modalities in various trial stages. The safety profile and diagnostic impact of transbronchial lung cryobiopsies continue to improve through the leverage of new biopsy tools and guiding imaging modalities. This Special Issue focused on “Bronchoscopy and Interventional Pulmonology”, welcomes experts to present a balanced overview of these exciting new possibilities, discussing the potential and limitations of each.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
