Updates on Gastrointestinal Endoscopy Technology

Message from the Guest Editor

Thanks to the evolution of technology, gastrointestinal endoscopy is constantly improving. As a result, we are always seeing new instruments and therapeutic possibilities. On this front, there is in fact a considerable push from patients, who ask for minimally invasive treatments, and from the industry in the biomedical field, which sees a profitable field of application. The purpose of this volume is to keep gastrointestinal endoscopists up to date on novelties, particularly in the therapeutic field, trying to clarify what is acquired and what is still to be defined on the new methods of gastrointestinal endoscopy and their indications and applications in the clinical setting. We call for papers on the following subjects:

- endoscopic submucosal dissection (ESD)
- peroral endoscopic myotomy (POEM)
- lumen apposing metal stent (LAMS)
- submucosal tunneling endoscopic resection (STER)
- full-thickness endoscopic resection
- endoscopic sleeve gastropasty (Endosleeve)
- endoscopic bariatric procedures
- spyglass
- endoscopic pseudocyst drainage
- gastrointestinal endoscopy

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
