

Special Issue

Periodontal Diseases: Clinical Diagnosis and Treatment

Message from the Guest Editors

We invite researchers, scholars and practitioners to contribute to this Special Issue of the *Journal of Clinical Medicine (JCM)*. This initiative aims to comprehensively explore the multifaceted aspects of periodontal diseases, with a focus on pathogenesis, clinical diagnosis and treatment modalities. The Special Issue aims to explore the complex mechanisms that cause periodontal diseases, highlighting the latest advances in understanding their development. Authors are invited to submit research articles, reviews and clinical studies that clarify the diagnostic complexities of periodontal diseases and present innovative approaches to their clinical management.

Guest Editors

Dr. Selena Toma

Dr. Veronique Christiaens

Dr. Jérôme Frédéric Lasserre

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
