

Special Issue

Latest Advances and Prospects in Movement Disorders

Message from the Guest Editor

It is my pleasure to serve as the for this Special Issue titled “Latest Advances and Prospects in Movement Disorders”. This edition aims to highlight groundbreaking research and emerging therapies in the field of movement disorders. With the prevalence of conditions such as Parkinson’s disease, dystonia, and tremor continuing to rise, there is a critical need for innovative diagnostic and therapeutic strategies. This Special Issue will encompass a wide range of topics including the epidemiology, pathophysiology, clinical manifestations, and novel treatment approaches for these disorders. We invite researchers and clinicians to contribute their findings and insights, fostering a deeper understanding and paving the way for future advancements in this dynamic field.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
