

Special Issue

Dental Care and Oral Health in Adolescents and Children

Message from the Guest Editor

We are really happy to invite you to contribute to a Special Issue on “Dental Care and Oral Health in Adolescents and Children”. Poor oral health might affect quality of life, nutrition, speech, and systemic health. Hence, children and adolescents should be provided with systematic preventive and therapeutic dental care. The goal of this Special Issue is to present current developments in pediatric dentistry, with the aim of connecting research and clinical application. We welcome reviews and original research articles concerning various aspects of dental care and oral health in adolescents and children. Potential topics for submission might encompass, but are not confined to, oral health, oral diseases, diagnostic methods, dental treatment, treatment methods, the connection between oral and general health, and special care dentistry. We look forward to receiving your valuable contributions to this Special Issue.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
