New Developments in Coronary Interventional Therapy

Message from the Guest Editor

Coronary interventional therapies have undergone significant advancements in recent years, revolutionizing the management of coronary artery disease (CAD). As the leading cause of morbidity and mortality worldwide, CAD necessitates continuous innovation to improve patient outcomes. This Special Issue highlights the latest breakthroughs in coronary interventions with a focus on collecting articles that explore the most recent advancements in percutaneous coronary interventions (PCI), stent technology, as well as approaches to bifurcation lesions, chronic total occlusions (CTOs), left main disease, in-stent restenosis (ISR), stent thrombosis, and multivessel interventions with a focus on enhancing precision, safety, and efficacy. This issue aims to provide clinicians with a comprehensive overview of the current landscape and future directions in coronary interventional therapies and will additionally give them insights and guidance to improve patient outcomes in interventional cardiovascular care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
