

## Special Issue

# Renal Failure: Treatment Advances and Future Directions

### Message from the Guest Editor

Acute kidney injury/failure and chronic kidney disease are major causes of mortality and morbidities. There has been a significant improvement in our understanding of the pathophysiology, causes, and biomarkers in renal failure. However, despite all efforts, there are still significant limited options in the management of renal failure. In a large number of patients, acute kidney injury and chronic kidney disease lead to end-stage kidney disease that requires renal replacement treatment with dialysis or kidney transplant. The reviews will highlight up-to-date data on the prevention and management of kidney failure in the native and transplanted kidney. The aim is to provide a source of knowledge to clinicians and researchers in order to improve the management of patients with kidney failure.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
