

## Special Issue

# Chronic Coronary Artery Disease: New Treatments and Future Directions

### Message from the Guest Editor

Coronary artery disease (CAD) is a critical health challenge that affects both people and healthcare systems. This Special Issue will address the following:

- Diagnostic technologies enabling early detection and risk assessment.
- Recent advancements in drugs that drastically ameliorate platelet disorders, lipid reduction, and angina.
- Advances in invasive treatments, notably percutaneous coronary intervention (PCI) and coronary artery bypass grafting (CABG).
- The significance of lifestyle changes and cardiac rehabilitation in CAD management.
- Therapeutic options and patient recovery and rehabilitation.
- Medications and supplements.
- Recent advancements in lipids modifications – Lp(a).
- Smoking, second-hand smoke and the cessation of e-cigarettes.
- Hormone Replacement Therapy (HRT).
- Research on the design of new avenues in CAD therapy, from breakthrough medications to collaborative multidisciplinary care paradigms.

In this review, novel medicines, significant breakthroughs, and contemporary developments in clinical practices that collectively influence CAD care are discussed.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
