

## Special Issue

# Advances in Echocardiography and Its Clinical Applications

### Message from the Guest Editor

Thanks to its wide availability, relatively low cost, non-invasive nature, rapidity of execution, and portability, echocardiography remains the pivotal imaging technique for the diagnosis and management of most cardiovascular diseases and is most commonly used as procedural guidance.

Over the last few decades, novel echocardiographic modalities, including contrast echocardiography, speckle tracking imaging, three-dimensional echocardiography, and intracardiac flow dynamics, have been developed with the aim of providing new insights into the pathophysiological mechanisms underlying cardiovascular diseases. This scenario of advances in echocardiography also includes automatic and semi-automatic artificial intelligence algorithms, which support the operator in optimizing image quality and taking measurements.

In this Special Issue of the Journal of Clinical Medicine, we welcome authors to submit papers on advances in echocardiography in terms of diagnosis, risk stratification, and the management of cardiovascular disease.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
