

## Special Issue

# Orthodontics: Current Advances and Future Options

### Message from the Guest Editors

The advancement of digital orthodontics allows for faster and more efficient orthodontic treatments. With the spread of digital technologies, treatment planning and clinical management have become more reliable and predictable. The use of software to design and plan orthodontic appliances offers many advantages, and digitalization has revolutionized the way therapeutic treatments are set up. On the other hand, we are seeing a gradual reduction in functional orthodontics in favor of more esthetic but less effective treatments. The advent of digital technology allows for the customization of devices and more effective use of orthodontic appliances. Digital orthodontics and functional therapy can be complementary, allowing for increasingly personalized therapeutic treatments. In this Special Issue, we welcome authors to present articles on advances in functional orthodontic treatments in the digital field, from planning to therapeutic management.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
