

## Special Issue

# Traumatic Brain Injury: Clinical Diagnosis and Management

### Message from the Guest Editor

Traumatic brain injury (TBI) remains a leading cause of mortality and long-term disability worldwide, posing significant challenges in acute care and rehabilitation. This Special Issue addresses critical advancements in TBI management, focusing on innovative diagnostic tools and long-term recovery strategies. We aim to bridge the gap between emerging research and clinical practice, highlighting multidisciplinary approaches that improve patient outcomes across the injury spectrum. We invite contributions exploring the following:

- Novel neuroimaging techniques for injury characterization;
- Intensive care management protocols;
- Rehabilitation strategies for cognitive and motor deficits;
- Pediatric and geriatric TBI considerations;
- Prevention of secondary brain injury.

This issue seeks to compile high-impact research guiding clinicians in making informed decisions from emergency response to community reintegration.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
