Recent Updates in Minimally Invasive Surgery

Message from the Guest Editors

Modern surgery increasingly demands minimally invasive approaches. These methods are not just a trend; they represent a fundamental shift toward enhancing patient care. Key objectives include precision, the preservation of healthy tissue, and improved cosmetic outcomes. Oncological radicality and successful surgical results should consistently be achieved alongside these elements. Patient satisfaction and adherence are crucial following both surgical and diagnostic procedures, with the overarching goal of promoting overall physical and mental well-being. This Special Issue aims to present and disseminate the most recent advances related to minimally invasive surgery. We will consider contributions addressing recent updates in minimally invasive surgery as well as novel techniques that improve patient compliance during surgical procedures or invasive diagnostic interventions.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
