Pediatric Pulmonology: Recent Developments and Emerging Trends

Message from the Guest Editor

Pediatric pulmonology research has made significant strides in recent years, providing new insights into this field. This Special Issue aims to highlight the recent developments and emerging trends in pediatric pulmonology, focusing on advancements in disease definitions and classification, identification of new biomarkers, effective lung function tests, and advancements in respiratory endoscopy. Notably, adult pulmonary diseases seem to have their origin in early life events, enhancing the need for early prevention and therapy. Understanding the impact of early-life factors on the development of pulmonary diseases is crucial for improving long-term outcomes. The objective of the articles on this topic is to highlight recent knowledge and research in pediatric pulmonology. We invite researchers and experts in this field to contribute their valuable insights and findings to this Special Issue to advance our understanding and improve the management of pediatric pulmonary diseases. We sincerely look forward to receiving your contributions.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France
