

## Special Issue

# Cardiovascular Imaging: Diagnosis and Therapeutic Guidance in Clinical Practice

### Message from the Guest Editor

Cardiovascular magnetic resonance (CMR) imaging has emerged as a cornerstone in the non-invasive assessment of cardiac structure, function, and tissue characterization. With its unparalleled spatial resolution, reproducibility, and versatility, CMR enables accurate diagnosis across a wide spectrum of cardiovascular diseases, including cardiomyopathies, ischemic heart disease, myocarditis, valvular disorders (particularly mitral valve prolapse), and congenital anomalies. Beyond diagnosis, CMR is increasingly recognized for its pivotal role in guiding therapeutic decisions—ranging from risk stratification and timing of interventions to monitoring treatment response. The evolution of advanced techniques such as T1 and T2 mapping, late gadolinium enhancement, strain imaging, and 4D flow has expanded the clinical utility of CMR beyond traditional volumetric and functional assessment. These innovations not only improve diagnostic precision but also enhance our ability to personalize therapy and predict outcomes. This Special Issue invites original research, reviews, and clinical perspectives that explore the diagnostic accuracy, prognostic value, and therapeutic impact of CMR.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
