

## Special Issue

# Advances in the Diagnosis, Treatment of Intestinal Cancer

### Message from the Guest Editors

Intestinal cancer, also known as colorectal cancer, is one of the leading causes of cancer-related deaths worldwide. Recent advances in the diagnosis and treatment of this disease have improved patient outcomes and increased survival rates. Treatment options for intestinal cancer have also expanded, with a greater emphasis on personalized and targeted therapies. Surgery remains the primary treatment for early-stage disease, but advancements in surgical techniques, such as laparoscopic and robotic-assisted surgery, have improved outcomes and reduced recovery times. In addition to these clinical advances, there have been significant strides in understanding the genetic and molecular mechanisms underlying intestinal cancer. Overall, the advances in the diagnosis and treatment of intestinal cancer have significantly improved patient outcomes and hold promise for continued progress in the field. However, challenges remain. The current Special Issue will focus on updated research that will address the existing challenges in the field, in order to further improve outcomes for patients with intestinal cancer.

### Guest Editors

Dr. Eyal Klang

The Division of Data-Driven and Digital Medicine (D3M), Icahn School of Medicine at Mount Sinai, New York, NY, USA

Dr. Adi Lahat

Department of Gastroenterology, Chaim Sheba Medical Center, Affiliated to Tel Aviv University, Tel Aviv, Israel

### Deadline for manuscript submissions

closed (23 June 2024)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
